Dear [REDACTED]

STATUTORY CONSULTATION LAUNCHED ON THE KEUPER GAS STORAGE PROJECT

I am writing to let you know that Keuper Gas Storage Limited (KGSL) has launched statutory consultation on proposals to develop further underground gas storage in Cheshire. The consultation on the Keuper Gas Storage Project (KGSP) will commence on 2nd October 2014 and close on 27th November 2014.

This follows an initial stage of non-statutory consultation earlier in the year where views were sought from local residents and stakeholders on the proposed development. The feedback has been assessed by the Project Team and compiled into an Interim Consultation Report, which can be downloaded at www.kgsp.co.uk. Further information on the consultation and the proposed development can also be found in the enclosed Project newsletter.

Pre-application consultation is essential in allowing us to understand concerns and minimise the impacts of the proposed development. Full details of how we will undertake our statutory consultation is set out in the Statement of Community Consultation (SoCC) document, available to download from our website.

Subject to feedback received during the consultation period KGSL propose to submit an application for development consent, under the Planning Act 2008, to the Secretary of State for the Department of Energy and Climate Change.

As part of this stage of consultation we will be holding several Information Days to inform local residents and stakeholders about the updated project plans.
