

FIND OUT MORE ABOUT

THE KEUPER GAS STORAGE PROJECT

Keuper Gas Storage Limited, a wholly owned subsidiary of INEOS Enterprises Group Limited, is consulting on plans for additional underground gas storage facilities at the Holford Brinefield and surrounding area, north of Middlewich, Cheshire. The Keuper Gas Storage Project (KGSP) would see brine extracted from underground cavities, which would then be used to store natural gas, helping to secure flexible energy supplies in the UK. An existing brine pipeline, which runs from Northwich to Runcorn, will continue to be used to transport brine from the Holford Brinefield to INEOS' operations in Runcorn, and will not be used to move gas.

The majority of the proposed development would take place within the Holford Brinefield, and surrounding area north of Middlewich, Cheshire, which will include all of the proposed gas storage facilities.

GET IN TOUCH

You can get in touch to ask questions or give your feedback on the plans in a number of ways*

Call: Freephone 0800 1777 250
(Monday to Friday 9.00am to 5.30pm)
